

Water Non-Use Policy

Comore Loma Water Corporation

(April 10, 2015)

Lots not using water will not be charged the regular water rate. They will participate in assessments for system-wide improvements and upgrades such as the 2014 DEQ SRF-funded project. Funds collected for that purpose will only be deposited in a separate account set aside exclusively for that purpose and will not be co-mingled with other water fees collected.
